

# FROM THE GARDEN TO THE CITY

---

CHAPTER 3: REFLECTION

# HOW WE ARE PROGRAMMED

---

- Humans were programmed to think rationally
- Humans were programmed to reflect God's relationality
- Humans were programmed to have dominion over the earth

# AN ALTAR IN THE GARDEN

---

- The altar was used as a sign of hope and prayer

# TECHNOLOGY CULTURE

---

- What is Culture ?

# TECHNOLOGY CULTURE

---

- What is Culture ?
- Culture is what we make of the world

# THE FIRST TECHNOLOGY

---

- Adam invented language for humans by naming animals
- In language there are values and identities set
- Nowadays language via text transfers the original value of words into emojis, abbreviations, etc.

# FROM THE GARDEN TO THE CITY: REFLECTION

# COMPUTER SCIENCE CULTURE

LEARN. LOVE. LEAD.

- ▶ We as computer science students and the language that we use
  - ▶ We have a culture from knowing certain programming languages that we will understand some things those without knowing our LANGUAGE wouldn't

## TECHNOLOGY REQUIRES DISCERNMENT

LEARN. LOVE. LEAD.

Two bytes meet. The first byte asks, "Are you ill?"

The second byte replies, "No, just feeling a bit off."

15 April 2015

So a programming language walks into a bar and says "Hello world"

Shoeb Mogal

— MORE PUNS

Database Administrators are a very superstitious group, whenever they are faced with an issue they always consult their Oracle.

Submitted by Bennett Walker

← MORE PUNS

Why do java programmers have to  
wear glasses?

Because they don't see sharp.

— MORE PUNS

## ► Overview

- We as programmers have our culture and our language and we can make that work for us so we can grow
